Ferrets are legal in the rest of New York, but the city classifies ferrets as wild animals, according to the 1999 ban. Some are concerned that ferrets will bite their owners or escape, but ferret enthusiasts have dismissed these claims, saying the animals were domesticated 2,000 years ago. The proposal would have also required pet ferrets be sterilized and vaccinated for rabies.

The company was quickly denounced — remarkably, more for saying that it was women's work to do the cleaning, as opposed to the even more horrifying "your woman" reference. And as often happens in such cases of utter cluelessness, the apology was worse than the offense. In a statement issued Sunday — International Women's Day — the company said: "The message is simply, instead of washing it in the wrong way you might as well give it to a lady because they are more capable. There's no intention to humiliate women. In contrast, (we want to tell the men) learn from women on how to take care of clothes because they pay attention to details. Not all men understand/know how to take care of their own clothes, women are more knowledgeable/experts on such matters. We apologize profusely for any miss-interpretations."
